

LX-20™

HVLP COMPRESSOR SPRAY GUN

The Fuji Spray® LX-20™ is a general purpose spray gun perfect for all types of professional spray finishing. The LX-20™ spray gun has been designed to replace conventional high pressure spray guns.

WHY LX-20™?

- LX-20™ is designed for all types of coating including high solid materials, perfect for use in production settings
- Available in gravity feed or pressure feed models
- Especially suited to wood finishing and any fine-finishing application
- LX-20™ is compact and lightweight – easy to handle. The ergonomic design allows the spray gun to feel comfortable in the user's hand for extended periods of time
- LX-20™ technology also allows for little to no dilution for most coatings

KEY FEATURES

- High transfer efficiency means less overspray that equals increased savings
- Optimized air cap design results in soft spray pattern and outstanding atomization
- Perfect for any type of professional spray finishing
- 100% stainless steel fluid passages suitable for water-borne and solvent-based coatings
- Recommended 15.2cfm at 26psi
- VOC-compliant
- Environmentally friendly spray gun

DESIGNED FOR FULL SYSTEM APPLICATION

- Fan pattern size is adjusted with a simple, yet effective side mounted control
- The fan pattern width ranges up to 13"
- Precise fan adjustment reduces overspray and waste
- Nozzle and Air Cap sizes available (in mm): 1.0; 1.2; 1.4; 1.7; 2.0
- All LX-20™ spray guns are installed with 1.4mm
- LX-20™ spray guns kits will include a regulator and 2 additional tips (1.2 & 1.7)
- Excellent value
